

## Running PILCOPS for Android using Puffin Browser

**Note:** By default, PILCOPS server is configured to support Android based mobile device support. The earlier support for Dolphin browser is discontinued and PILCOPS now works on Puffin browser.

1. Download and install the Puffin web browser from Google Play Store.
2. After Puffin browser is installed, start Puffin browser.
3. Go to [www.pilcops.com](http://www.pilcops.com) on dolphin browser and select "Seafarers option". Login with your PILCOPS ID / Password.
